

PILOT FEASIBILITY STUDIES PROGRAM

Current Recipients of the Program

No.	Recipient's Name	Affiliation	Aim of the study
1	Becknell, Brian	The Research Institute at Nationwide Children's Hospital, Columbus, OH	Monocyte Recruitment During Acute Pyelonephritis.
2	Pannabecker, Thomas	University of Arizona Tucson, AZ	Intravital Imaging of the Renal Inner Medula.
3	Cunningham, Patrick	Section of Nephrology, University of Chicago, Chicago, IL	Impact of Fenestrae Changes on Protein Filtration in LPS-induced AKI.
4	El -Achkar, Tarek Dagher, Pierre Winfree, Seth	IUPUI, Indianapolis, IN	Large scale tissue imaging.
5	Erkan, Elif	Cincinnati Children's Medical Center, Cincinnati, OH	Mechanism of Albumin Endocytosis in Proximal Tubule Cells.
6	Chandrasekar, Indra	Sanford Research, Sioux Falls, SD	Nonmuscle Myosin II in Renal Tubular Endocytosis and Kidney Function.
7	Cheung, Chee Kay	University of Leicester, Leicester, UK	IgA nephropathy.
8	Elbanna, May Pili, Roberto	IUPUI, Indianapolis, IN	Understanding the mechanisms of resistance to PI3K pathway targeted therapy in PIK3CA mutant bladder cancer.
9	Hato, Takashi	IUSM, Indianapolis, IN	Identification of specific metabolic species with intravital fluorescence lifetime imaging
10	Sun, Yang	Glick Eye Institute, Indianapolis, IN	Characterization of phosphoinositides in primary cilia in renal tubular cells in health and disease.
11	Wiggins, Roger	University of Michigan, Ann Arbor, MI	Podocyte injury-induced change in glomerular blood flow.
